NUMBER 122

BODY OF MISSING HUNTER FOUND, IDENTIFIED

Funeral Service For James Mortimer Will Be Tuesday At 2 O'Clock; Inquest Set For Tuesday Evening At Courthouse

The funeral services for James Mortimer will be held Tuesday afternoon at 2 o'clock from Memory Chapel. Interment will be at Union Cemetery.

The Coroner has called a formal inquest in the case to be held Tuesday evening at the courthouse at which the case of the Placerville youth who became lost on October 2 while deer hunting in the Cat Creek section above Caldor will be closed in legal form.

It appeared Monday morning that the inquest will do little more than summarize the investigation which was begun immediately after the young man's disappearance, and which recently was revived when Bill Donnelly, of San Luis Obispo, took up the search on Sunday, June 18.

Donnelly found the remains on Friday.

He had no particular interest in the case except that a man was missing and a reward of \$1,000 had been posted for anyone who might find him, dead or alive. Donnelly informed county officials that he has assisted in several such disappearances and has become a "hunter of lost hunters."

Contacting officials and through them the family of the missing hunter, Donnelly was taken to the district on the morning of Sunday, June 18. He was equipped with maps of the region and also hand-drawn sketches of the region. He also had conferred with those who had directed the organized search for Mortimer during October until snowfall and, in effect, began his search where the other searchers had left off.

Thursday he found a human bone. Friday he located the body of a man. He came to Placerville Friday.

OTTO HERMLE SUCCUMBS

Last Rites Wednesday For Fruit Grower, Former Nebraska Educator

Funeral services for Otto Henry Hermle, 72, who died early Saturday at his residence on Coloma road, will be held Wednesday afternoon at 1:30 o'clock from the Federated Church. The services will be conducted by the Rev. Harold Morehouse and upon their close the body will be removed to Sacramento for cremation.

Mr. Hermle had not been well for several months past and although he was hospitalized for a time, every effort to control his affliction failed of success and, within recent weeks, he had been removed to his home.

A native of Iowa City, Iowa, born December 18, 1866, Mr. Hermle came to California in 1903. In his earlier life he had been a school teacher and also a school principal in Nebraska.

The family moved to El Dorado County in 1925 and Mr. Hermle acquired ranch property and became a fruit grower. He was active in the affairs of the Federated Church and at the time of his passing was a member of the executive board of the church, a post he had filled for a number of years.

The many traits of Christian character which he demonstrated in his daily life won for him a large circle of friends whose sympathy and assistance is offered the surviving family.

Mr. Hermle is survived by his wife, Mrs. Lydia Hermle, and one daughter, Miss Muriel Hermle; and by a son, Otto Hermle, whose home is at Los Angeles.

In addition, he is survived by three sisters, the Misses Amelia and Edith Hermle, of Oakland; and Mrs. Lilly Abbott, of Nebraska; and by a brother, George Hermle, also of Nebraska. Two grandchildren, in addition to other more distant relatives, also survive.

MRS. ALFRED WUNSCHEL DIED ON MONDAY AT WEIMAR

Mrs. Alfred Wunschel, 20, of Placerville, daughter of Mr. and Mrs. John Arcana, of El Dorado, died Monday morning at Weimar Joint Sanatorium, in Placer County, where she had been a patient for sixteen days.

The body was brought to Placerville Monday morning and it was announced by Memory Chapel that the last rites will be held on Wednesday morning at ten o'clock from St. Patrick's church. Interment will be at Union Cemetery.

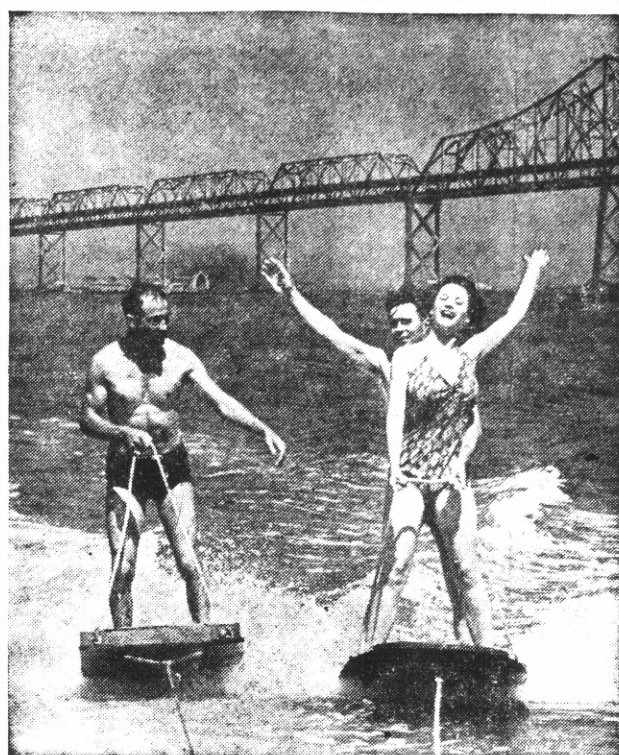

STATE GAS TAX REVENUE FOR MAY SHOWS MARKED GAIN

SACRAMENTO — The highest monthly gain in gasoline sales for more than a year was recorded last month, the State Board of Equalization reported today.

Gasoline distributors reported the sale of 156,751,696 gallons of gasoline on which a tax of \$4,702,550.88 was levied. This represented a gain of \$406,239.33 or 9.46 per cent over the same month of last year. The May income also was substantially higher than the \$4,406,313.03 collected in gasoline taxes during the month of April.

Out of five months of the current year four have shown substantial gains in taxable gasoline sales as compared to the same months of 1938.

Miss Betty Klare, daughter of Mr. and Mrs. George Klare, of Fairplay, is spending several days with her aunt and uncle, Mr. and Mrs. C. E. Barker.

SUNDAY MORNING VISITORS at Treasure Island were treated to this performance by three daring water sports enthusiasts, towed by 275-horsepower speedboats from the Crowley passenger cruiser docks in the rear of the Palace of Fine Arts. When this picture was taken the three "cupboard doors" were skidding across the Port of Trade Winds at 40 miles an hour. In the picture are Patricia Robinson, nationally known diving star, riding with Tom Crowley, Jr. At the left is Leno Pera, Pacific Coast yachtsman, with the bay bridge in the background.

JUDGE LEGISLATURE BY BILLS DEFEATED, THURMAN SUGGESTS

Tremendous Political Pressure Reported By Assemblyman During Recent Session; His Vote Supported His Platform

By A. G. "SCOOP" THURMAN
Member of the Assembly, Sixth District

COLFAX—The longest session of a state legislature in California history and one of the most hectic sessions since 1921, is now an event of the past. The session adjourned sine die last Thursday at 7 p. m. although in the records it will show adjournment as having taken place on Tuesday June 20th at 5 p. m.

Just how the people will judge the session just passed remains to be seen. To those who may think it was a "do nothing" legislature let me suggest that you judge it not by the legislation which it passed but by the legislation which it refused to pass.

The writer's own opinion is that more bad bills were killed in the lower house this session than have been killed in several recent sessions. Not a bill which would have affected this large assembly district in a detrimental way was passed by the Assembly while numerous measures which if passed would have been injurious to the people of the district were defeated. There were radical labor measures which if passed would have opened the district to all of the outside labor racketeers in the state to come here and tell our people how they should live and how they should work. These bills would have opened the door wide open to the Tom Mooneys and the Harry Bridges to come into our district and stir up strife and trouble in a district which is of pioneer origin and is the most patriotic in the state. But thanks to a group of men and women in the Assembly who are intensely patriotic and place their state ahead of their party, these bad bills were defeated.

There were bills which would have placed extra burdens upon the farmer but these bills too were defeated by the same group of men and women legislators. There were bills which would have seriously handicapped our gold mining industry by the elimination of the depletion tax and again these safe and sane legislators defeated the injurious measures. There were other radical measures and some "crackpot" measures too which went down to defeat. There were such bills as the compulsory health insurance plan which would have added a payroll tax of from between \$80,000,000 and \$100,000,000 a year. There were tax measures which would have seriously handicapped business and as a result would have added direct and indirect taxes upon the individual. There was a proposed severance tax on oil which would have been just another indirect tax for the consumer to pay and which if started, might eventually have included a severance tax on gold and lumber, two highly important industries in the Sixth Assembly district. All of these measures were defeated.

The largest budget in the history of the state was cut down in an endeavor to help the taxpayer, industry, the little business man and the wage earner.

The relief bill which was the cause of so much debate was finally adjusted to the satisfaction of all and as we have stated many times before in this column, ample funds have been allocated and no one will go hungry. And there will be no politics in relief.

So again we say judge your legislators by the bad bills which they have placed extra burdens upon the

number of years." Regional Forester Show said, "but there is no question as to their value in the administration of the Nation's forest areas."

Speaking of the value of the photographs to the Forest Service, Regional Forester Show said, "This modern method of examining forest areas is without doubt one of the greatest boons to foresters yet to be found. By photographing the terrain so that one photograph overlies the other, when viewed through a stereoscope similar in many ways to the simple parlor stereoscope of years ago, will produce an image in three dimensions in which the mountains, canyons, trees and other features stand up in relief just as they would appear to an observer flying over the country in an airplane. The photographs are, of course, made only when visibility is at its best.

The plane will therefore have to fly at nearly 24,000 feet over the higher parts of the range. "Photographs of all 13 National Forests in California will not be available for

2-DAY JULY 4TH CLOSING URGED

Suggestion Favored By Several But Is Lacking Active Sponsorship

A number of the business people of the community have spoken to us about the desirability of declaring a two-day holiday for the Fourth of July.

Independence Day, they suggest, falls on Tuesday, so why not make Monday a holiday, too, and close up Saturday evening and return to work Wednesday morning?

The proposal may meet with favor in certain lines of merchandising although there are some other lines in which to close for so long a period could not be so easily nor conveniently done.

The Republican is not agitating the matter, but as a means of bringing the suggestion to the attention of the business people of the community generally, we mention it here.

If some committee would undertake a survey of the stores of the community, it might be found that a majority of the proprietors would be in favor of the two-day holiday plan.

Pierovich Now Amador Judge

Special Election For State Senator Seen As Possibility

Our late state senator, A. L. Pierovich, of Jackson, took the oath of office at Sacramento Monday morning as Judge of the Superior Court in Amador County, successor to Judge Anthony Caminetti, Jr., who is the new state insurance commissioner, by appointment by Governor Culbert L. Olson.

The two appointments, shifting Caminetti to the insurance post and rewarding Pierovich for his support of the administration's program in the Legislature, leave the state senatorial district without a senator.

The probability that the Legislature may be called into an extra session late this fall indicates that Governor Olson may call a special election to name a successor to Senator Pierovich.

In fact, that seems to be the kernel of the present situation: if it appears that the Legislature will be called to meet again, there will be a special election for state senator; if the Legislature is not called again until the regular meeting time (the Legislature meets bi-annually) there may be no election to fill the vacancy until the fall of 1940.

However, with a session in the coming winter a virtual certainty, a special election is equally certain.

AROUND OUR TOWN

Forest Supervisor Edwin F. Smith and C. C. Herbert, forest road superintendent, were in the Echo Lake vicinity on Monday.

Declaration of their intention to wed was filed with the county clerk on Saturday by Harold F. Bergantz, 25, and Genevieve M. Dudley, 19, of Pollock Pines.

Walter Clark was a caller in the county seat Monday from Garden Valley.

Pat Ryan was among those in town Monday from the Latrobe vicinity.

Mr. and Mrs. Ralph Kyburz were in Placerville Monday morning from their resort in the American River canyon.

Charles Bacon was a caller from Pleasant Valley Monday.

Supervisors Cyril Heusner, of Shingle, and Charles Green, of Diamond Springs, were attending to business in the county seat Monday.

Dr. Jean Babcock and Mrs. P. F. Volz left Sunday to spend several days at the world's fair at Treasure Island. The ladies made the trip to the bay by plane, with Dr. Dan Babcock at the controls.

Mrs. Edith Miller is spending several days at Sacramento while under the care of a specialist for the relief of sinus trouble.

Mr. and Mrs. Paul Salvater were here Sunday from Auburn, visiting the latter's sister, Louise, and brother, Roy.

Gets Church Honor

Clara Olds Loveland, of Glendale, Ohio, a graduate of Wellesley College (1921), is shown after she was awarded degree of Bachelor of Divinity, an unprecedented honor, at Berkeley Divinity School, New Haven, Conn. It is first time in history of the American Protestant Episcopal church a woman has received that degree, it was stated.

CLUB'S DINNER HELD SUCCESS

William Veerkamp Clams Cash Prize For Catching Largest Trout On Trip

The weekend outing of the Rod and Gun Club at Wentworth Springs attracted more than fifty members of the club and resulted in a general good time for all who participated, according to A. H. Murray, the club president.

The cash prize of \$5 offered for the one who would catch the largest fish of the weekend will go, says John A. Winkelman, to William Veerkamp, of Coloma. He claimed the honors with a 21-inch speckled Tahoe trout.

According to the previously announced plans, those who had registered to attend the outing went to the area during the end of the week and made their own camps. Some of the advance guard went in Friday of last week and the balance went on Saturday to be ready for the club's steak dinner at Wentworth Springs on Saturday evening. More than fifty were served at the dinner.

During and following dinner there was a general and informal program of songs by Bill and Jack Berry and Phil English in which those at the meeting joined, coupled with a session of story telling. No business meeting of the club was called.

Sunday morning the nimrods went fishing in their favorite spots in the vicinity, returning home later in the day.

"Everyone seems to have enjoyed the outing," Murray said. "In fact, it has all ready been suggested that we plan another one for next year."

LOTUS SWIMMER SAVED FROM DROWNING BY BOY SCOUT

Jerry Davis, a member of Troop 86, Boy Scouts, writes the news notes of the troop for the paper and also keeps his eyes and ears open for other news items, especially those that concern Boy Scouts.

The following report of the rescue of a swimmer who got into difficulties at Lotus Sunday is by Jerry Davis:

Sunday about 4:00 p. m. Carl R. Gertz of 182 Coloma Street saved Charles Jensen from drowning.

The two were swimming at Lotus in the South Fork of the American River.

Jensen was swimming when he got cramps and attracted the attention of Mr. Gertz. Mr. Gertz swam out expertly, grabbed Jensen by the hair, swam him in, and administered first aid treatment.

Both these men live in Placerville. Gertz is to be Junior Assistant Scoutmaster of troop 86. He has received his swimming and life saving merit badges, and is a potential candidate for a Red Cross senior life saver.

Mrs. George B. Young and daughter were in town for the weekend from Lumberyard ranger station.

Mr. and Mrs. L. A. Beckstead, former residents, who have spent several years in Nevada near Fallon, are here for an extended visit.

150 ATTEND TAHOE CAMP

Annual Farm Bureau, 4-H Club Overnight Outing Ended Sunday

The fourth annual overnight camp at Lake Tahoe of the county 4-H Clubs and Farm Centers, was held Saturday and Sunday with an attendance of about 150.

Under the general direction of Roy Marks as camp superintendent, assisted by other 4-H and Farm Bureau members and by the Forest Service, the camp passed off pleasantly and without untoward incident and was marked down as an outstanding success.

Assisting Marks were George Volz, in charge of games; Fred Wesells, in charge of the campfire program; and Frank Spurrier, northern California 4-H Club leader, who contributed generally to the success of the undertaking, as usual.

Gathering in camp Saturday afternoon, the recreationists devoted the afternoon to games and nature studies. Dinner was at 6 o'clock and the camp-fire program started at 7:30 o'clock.

In addition to the offerings of various centers and 4-H Clubs, Mr. Spurrier shared the program and county Farm Bureau President Jas. A. Irving was present and gave an appropriate talk.

Sunday morning following breakfast, there was an excursion to Cave Rock, while some others went swimming or engaged in games. The camp officially closed following the noon meal.

Members of the club said they feel special thanks are due County Supervisor W. H. Breedlove, of Georgetown, and Forest Ranger Frank McCaslin, of Georgetown District, for their assistance in making the outing a success.

Fred A. Rupley Loses \$4,000

Auburn Man Charges Trio With Grand Theft In Deal For Assorted "High-Grade"

On the complaint of Fred A. Rupley, of Auburn, charges of grand theft were preferred in Placer County against three suspects identified as Wade Malotte, Mr. Olson and Dr. Bates.

The trio are reported as being sought in connection with the alleged swindling of over \$6,000 from an Oroville merchant, who subsequently committed suicide.

Rupley, it appears, was bilked for \$4,000.

He told the Placer County district attorney that he had entered into a transaction with the three men involving the purchase of "some high-grade" and drew \$4,000 from a bank in Auburn and paid it to one of the men.

The "high-grade" was contained in small packages of tin which bore ornamental characters on the outside of the boxes and when the boxes were opened by Rupley after the trio had presumably left Auburn, they were found to contain a quantity of white powder, which was identified by an Auburn pharmacist as being bicarbonate of soda.

LAWSON CHOSEN CHAIRMAN OF LAKE VALLEY BOOSTER UNIT

CAMP RICHARDSON—The Lake Tahoe division of the El Dorado County Chamber of Commerce has elected as directors Ralph Wing, L. C. Kreuger, Norman Celio and John S. Lawson to serve for two years and Dwight Martin, Stanton Meyer and Carl Sirard to serve for one year.

Lawson was elected president, Stanton Meyer, vice president; L. C. Kreuger, treasurer and Elizabeth Lawson, secretary.

The program for the coming year is for further development of the south end of the lake. One of the major projects is an all year highway over Echo summit.

The organization was instrumental in securing increased appropriation for snow removal in Lake Valley last winter, removal of trees where they were a menace to travel and securing from the forest service more adequate fire protection. Lawson said he will appoint chairman of the various committees at a special meeting next Tuesday night.

James Kelly was a caller on Monday from Kelsey.

PUBLIC NOTICE

Legislature Summarized
(Continued from Page One)

defeated and not the legislation which they passed.

Your assemblyman was elected on a platform of "sane legislation and economy in government." We were elected by the people of our district and not by the politicians. We refused to be a "rubber stamp" legislature, notwithstanding some of the most terrific political pressure which the politicians endeavored to heap upon us. We decided on how we would cast our vote on the important measures on the basis of how the measure would affect our district and not our political future. In our own heart we believe that we have kept the faith and have fulfilled our campaign promises. We leave it to the people of our district to be the judge.

In closing this, our final column, we extend our sincere thanks to the editor and publisher of The Republican for their courtesy and cooperation in allowing us this space each week to tell the readers of this newspaper about legislative matters affecting this, the largest assembly district in the state. We have enjoyed these weekly chats with our constituents and trust that those who have read his column in their home town paper have at least learned about how their legislators work and how the legislature operates.

To our many friends and supporters throughout the district we extend our sincere thanks for making it possible for us to serve as a member of one of the most strenuous sessions in the history of the state legislature. We enjoyed our legislative work immensely and are sincerely grateful to those who made it possible for us to serve as a legislator.

We will be glad to hear from the people of our district at any time we can be of service. Our home address is Colfax, California.

No. 2322

In the Matter of the Estate of JAMES H. BULLARD, Deceased.

Notice is hereby given that a petition for probate of the will of James H. Bullard, deceased, and for the issuance of W. A. Green of Letters Testamentary thereon has been filed in this Court, and that the 30th day of June, 1939, at 10 o'clock A. M., at the Courtroom of said Court, at the Court House in the City of Placerville, in said County of El Dorado, have been set as the time and place for the hearing of said petition by the Court and for the proving of said will, when and where any person interested may appear and contest said will.

Dated, June 19th, 1939.

ARTHUR J. KOLETZKE, County Clerk and Ex-Officio Clerk of the Superior Court in and for the County of El Dorado, State of California.

By GLADYS GARDELLA, Deputy.

J. J. Henderson, Attorney for Petitioner.

Old-Fashioned Spank Returns

By GARRY C. MYERS, Ph.D.

DURING all the years I have written this column I have consistently entreated parents to train the child, beginning about as soon as he can move about, in the unambiguous meaning of NO (rarely heard) as the alphabet of safety and citizenship. As a means to this end I have advised deliberate use by both parents of the good, old-fashioned spanking.

I always have limited this advice to the early years, hoping that corporal punishment could be abandoned by the time the child is four or five. Nothing in what I have written lends encouragement to those parents who whip their older children.

In this point of view I was long entirely alone in the United States. But, as I have called to your attention in this column, three books have appeared in the last few years agreeing substantially with my point of view, one by an eminent psychologist.

Stiffen Up

Practically all other columnists writing for parents still warn against any form of corporal punishment at any age. One of these columnists occasionally exhorts parents to stiffen up on control of teenage boys and girls—after having taught these same parents when these youths were babies never to lay the hand on them to restrain them.

Numerous eminent child experts are beginning to acknowledge the need of some restraints, and one now and then will justify a slap or two on a safe place. Perhaps it is called conditioning, so much more high-sounding than spanking. Thanks for this fancy name; some writers will be able to save their consciences and their faces.

Must Be Control

At a recent meeting of parents and teachers I heard one of these child experts declare that many choices and decisions of the young child, even the adolescent, must be made for him, and that there must be control and authority. A few weeks earlier this same person said to me:

"You know, I don't say there must be no spanking."

But I didn't know and, upon hearing this, I was agreeably shocked.

If the P.T.A. programs on child rearing were to begin to emphasize among its 2,000,000 members the need of discipline in the home, there might be less crime in the United States after a decade. Henceforth, they probably will pussyfoot less on punishment.

\$5,000 HEART BALM WON IN SUPERIOR COURT TRIAL

Lillian Robertson, charging Amy Buckner with alienating the affections of W. R. Robertson, was awarded judgment for \$5,000 by a jury in Superior Court on Friday afternoon of last week. She had asked \$50,000.

The Robertsons formerly operated the Tahoe Meadows garage near the state line at Lake Tahoe. Following their separation, Robertson married

Amy Buckner.

In the division of their community property, Lillian and W. R. Robertson were unable to agree and this resulted in an action by Lillian Robertson against W. R. Robertson for some \$600 claimed as owing her for property he converted to his use.

Judge Thompson heard the property settlement matter on Thursday morning of last week and took the case under advisement. Then, in the afternoon, the alienation of affections hearing came on before a jury, which reached its verdict late Friday afternoon.

Marx-Made Suits for Men and Young Men

THE Book Mark

By JANE VOILES

The American Library Association has been meeting in San Francisco with delegates from just about everywhere. All puffed up we went as a guest to the Friends of the Library luncheon at the St. Francis. We found the lobby buzzing with sisters and brethren of the profession and a few authors receiving homage. And would you believe it—we saw only one person carrying a book and she turned out to be a telephone operator in the hotel.

Craning our neck to look at Rachel Field we fell into one of the big waste paper baskets and before we could extricate ourselves, she was gone. We did manage a glimpse at Hildegard Hawthorne holding court by the stairway surrounded by admirers, which is just as it should be as her new book "Romantic Cities of California" is going to make California very proud of her indeed.

Gradually we edged our way through gardenia scent, those San Francisco street florists must have done a land office business, through groups of librarians with perky little hats and heavy lipstick, and one or two groups of good looking men. We were pleased to see that the profession attracts handsome men. Finally we came to the splendors of the Colonial dining room. Nothing lean and hungry about the book lovers of today, no basement cafeteria but the very best in food and service.

Grand food was served too. It would have done honor to any one of those famous writers who like to fancy themselves in the role of cook: a salad with fresh crab that would have been a credit to Edna St. Vincent Millay, a chicken terrapin that would have delighted that connoisseur of good food and good mysteries Rex Stout and a mousse delectable enough for all the heroines who do nothing but sit on cushions and sew fine seams.

Perhaps it needed the good things to put the guests in the proper receptive mood for the after lunch speeches. There were high lights though among the stuffed shirts. Ruth Comfort Mitchell had come up from Los Gatos and she endeavored herself to the entire party with her graciousness and her humor.

On the way to the conferences held at the auditorium and the nearby high school, someone pointed out the belle of the convention, an Irish lass all the way from Dublin. We were stopped and made to listen to the story of the morning told by publisher Stanley Rinehart, son of the famous Mary Roberts Rinehart. Mr. Rinehart of the firm of Farrar and Rinehart, one of the largest publishing houses in the world, told how publishers take care of their authors. One author wanted a divorce but couldn't raise the money to go to Reno. The publisher raised it for him. Pretty soon the same author wanted to get married. The publisher raised the money for him. Before long the publisher heard there was going to be a baby in the family, so he got to the author first and said—"at last here's something you can raise for yourself."

We poked our head into a few of the conference rooms. Joseph Henry Jackson was talking about books and radio broadcasting. Let us interrupt to say that his book "Tin-types in Gold" is out. It is about four famous bandits of the gold region. We will have more to say about it later, but read it by all means.

When we entered one room a competent looking girl was holding

Famed Golden Spike

When the Union Pacific rushing westward, met the Central Pacific line rushing to the east, there came a dramatic moment in Western history. All that drama comes to life again in "Cavalcade of The Golden West," in a scene depicting the driving of the "Golden Spike," by the empire builders. The characters portrayed are (left to right): Dr. Durant, the Nevada who was Master of Ceremonies, the Hon. F. A. Tritle of Nevada, and Governor Leland Stanford of California, who drove the historic spike. *Cavalcade* is a major feature of the California World's Fair.

65 PCT. OF HOME COST FOR MATERIALS, SURVEY SHOWS

WASHINGTON—The U. S. Bureau of Labor Statistics has completed a detailed cost analysis of eight low-cost demonstration homes erected in the latter part of 1938 at fairway hills, Maryland, the "Laboratory Community" of the National Small Homes Demonstration.

The study reveals that these one and two story houses, ranging in accommodation from three to seven rooms, were erected at cubic foot costs for labor only, of from 19.7 to 27.8 cents.

Individual unit costs range from \$2280 to \$3500, not including land, contractor's profit or development of grounds.

The study brings to light the increasing fact that as unit costs for houses are reduced, the balance between labor and materials is broken, in that materials greatly exceed labor. About 35 per cent of the money spent in this experimental construction went for labor at the site, while 65 per cent is consumed in the purchase of materials.

Reports of \$60 per ton for apricots are heard from Santa Clara County. forth on the platform stressing the point that no decent person wants to be told what to read. Our face was so red we had to leave in a hurry.

We walked blindly into another room where a complacent lady was reading a learned paper on reader's psychology. By dint of much frowning and hard concentration we managed to make out that one woman went to the library to ask for detective stories. She gave them to her husband to read and that kept him home nights. That gave us something to think about and we went home.

Pear Label "Sent Home" From Near Liverpool

When Mrs. Clyde Curtis opened a recent letter from her brother, William Harper, of Rowenstall, England, she found that the envelope contained, in addition to a message, a box label from a box of pears shipped by the Placerville Fruit Growers' Association.

Mr. Harper explained that he had been gathering firewood one evening and found the label. Rowenstall is said to be about fifty miles land from Liverpool, England.

411,000 Mile Truck Retired with Honors

A real pioneer of business transportation recently arrived at the Golden Gate International Exposition, Treasure Island, where it went on exhibition in the elaborate Ford Building. It is the Ford V-8 truck that served the S. H. Bacon Materials Company of Huntington Park, Calif., faithfully for 411,000 miles, hauling more than 100,000 tons of sand and gravel since 1935. Upper left shows driver W. O. Sloan arriving at the island. Upper right—Ernest Webber, Ford executive, with driver at the main gate. Center—C. A. Bullwinkel, right, manager of the Richmond, Calif., branch plant of the Ford Motor Company welcomes the distinguished performer. Lower left—driver Sloan kisses the truck fond adieu in its display space of honor in the elaborate Ford Building.

Sports Parade

By HENRY McLEMORE

NEW YORK, (UP)—If you have a horse around your house hold on to him, because with the pari-mutuel bill passed in New Jersey horses are certain to become very, very valuable.

With 44 tracks in operation in this country now, there already is a shortage of horses, so you can see how scarce the supply will be when Jersey racing starts next spring. Plans for 10 tracks were announced within 24 hours after the voters okayed the mutuels, and before the week is out dozens more are certain to be outlined.

When these plants are added to the ones already doing business there just aren't going to be enough horses to go around. Not good ones, anyway, and the only solution of the problem will lie in running anything that bears a faint resemblance to a horse. If you have anything that has a mane, tail, likes oats, and can give a fair imitation of a whinny or a neigh, you have a good chance of seeing your silks galumphing down the stretch in some pretty important races. Of course, you'll have to change the name of your horse, because racing commissions like pretty names, but that won't be difficult. Dobbin can become Winged Victory; Bessie Lou can be registered as Sister Cerise, and ol' Ben (you know, the one the children feel safe on) can go to the post as Conqueror the 2nd.

If all the Jersey tracks are built your horses won't have to run in cheap races, either. Big stake races are vital to a track's success these days and, with no champion horses available, the tracks will have to schedule events to suit what is

quartered in their barns.

I wouldn't be at all surprised to see a \$100,000 handicap with such conditions as these: 1-16 miles. 15-year-olds and upwards. Non-winners since Armistice Day, 1925, allowed 25 pounds. Two pounds allowed for each year of service behind plow since 1930. There will be one stop for water at far back stretch turn.

Or one like this: the sawed-off stakes for Shetland ponies, \$15,000 added. Conditions: 10 pounds added for those who haven't thrown children off back in last two weeks. One pound off for those equipped with cockleburrs in tail. Head start given those who have drawn more than four children in dogcart in past 10 days.

Or even one like this: the \$50,000 Whiffletree Steeplechase: claiming price \$2.75. Distance—one jump. Four pounds off and veterinary care for those who haven't jumped before. All starters to be equipped with electric buzzers, rowel spurs, stimulant capsules. No saliva tests. Ringers and paint jobs 10 pounds added. Non-winners of as much as \$25 during lifetime be granted privilege of running around jump. Swaybacked mares and fillies allowed western saddles.

So, hold your horses.

ATTORNEY GENERAL TELLS ATTORNEYS OF NEED FOR CO-OPERATION

District Attorney Henry S. Lyon returned over the weekend from San Francisco, where he spent the latter part of last week in attendance at the annual convention of district attorneys. Mr. Lyon was accompanied by Mrs. Lyon and their daughter, Evelyn.

Highlights of the meeting, the district attorney reports, was a talk by Attorney General Earl Warren stressing the need for co-operation between all officers in the interest of law enforcement.

Eastern Arizona may become an important lettuce area.

James Mortimer Rites Tuesday

(Continued from page one)

evening and reported his discovery to officials and arrangements were made for Coroner A. J. Orelli and others interested in the case to accompany Donnelly to the scene of Saturday morning.

This was done and the body was identified by the clothing, by the finding of Mortimer's rifle in the vicinity, and by identification by Dr. William B. Schneider of the teeth. The dentist is a cousin of the victim.

Coroner Orelli and Sheriff Smith state that no evidence of a gunshot was found. All circumstances seem to indicate that the young man got into difficulty through some cause or other. They believe he passed away during the night of October 2.

The spot where the body was found is described as being about five miles from where Mortimer was last seen alive, and about a mile and a half from the camp which had been the headquarters of the deer hunting party of which he was a member. The spot is near the top of what is called Cat Creek hill, and about 200 yards south of the road between Plummer and Leek Springs lookouts.

The body was found about a quarter of a mile away from where the posse found the young man's box, some shells identified as having fired by his gun, and some matches and papers, last fall.

The rifle was found about 125 feet from the body. There were no shells in the gun and the lever on the rifle was open. The last shell had been ejected.

Searchers went through the area last fall but the section where the body was found was not a part of the area which was combed thoroughly. The spot where the body was found was in the last section searched and the hunt was concluded in some haste in view of an approaching storm.

Mortimer was in the vicinity hunting on Sunday, October 2, with Dr. Schneider, William Cooper and Berni Chappell when he became separated from his companions. When he failed to return to camp that evening, a search was instituted the following day. The search was continued for several weeks until winter snow made further hunting impossible.

All of those who had the responsibility of supervising or directing the search appear to be agreed that the young man met with some misfortune during the afternoon or early evening of the day on which he became lost.

Mortimer was the son of Mrs. Ann Mortimer, of this city, and Cleo Mortimer, of Los Angeles. He is survived also by his brother, Francis, of this city, and by his wife, Mrs. Dossie Denman Mortimer, in addition to other relatives.

COUNTY MAN MAIN SPEAKER AT DEDICATION IN REDWOOD CITY

The -San Mateo County courthouse and the new city hall, at Redwood City, and the new public library in that county seat were dedicated Sunday in joint exercises arranged under the auspices of the Native Sons of the Golden West and the American Legion.

The Native Sons were in charge of the dedication of the courthouse and the city hall and the grand officers of that body officiated.

District Attorney Henry S. Lyon, of Placerville, grand first vice-president of the Native Sons, was honored in the dedication of the courthouse by being called upon to make the dedicatory address.

In the city hall dedication Edward T. Schnarr, grand second vice-president of the order, was the dedicatory speaker.

Henry Bacchi was among those in the county seat Monday from Los Angeles.

CHANGE PING TO PURR by cleaning out carbon as you drive

TRITON MOTOR OIL
100% PURE PARAFFIN-BASE
Try it today!
Triton forms almost no new carbon. Actually allows your motor to burn away the excess carbon deposited by other oils. The motor generally loses its carbon ping within 2 to 3 thousand miles! And, at the same time, it gets the protection of a 100% PURE PARAFFIN-BASE OIL—the finest type of lubrication money can buy. Ask for Triton next time you refill. UNION OIL COMPANY

ELECTRIC COOKING COSTS 1/2 AS MUCH AS YOU THINK!
NEW FAST 1939 ELECTRIC RANGE
combines LOW COST. SPEED. SURE RESULTS

Although thousands of electric range users in California know the reasonable low cost of electric cooking, a recent survey proved that guesses of those who did not know—averaged twice the actual cost.

Electric cooking is really economical cooking. Present low electric rates, highly perfected new heating elements in modern electric ranges, heavily insulated ovens that conserve heat, exact heat measurement at the snap of a switch which keeps current use down to a minimum—all contribute to the low cost of electric range operation.

Have you guessed an electric range is SLOW?

Guess again. All of the 1939 Electric Ranges are completely equipped with Speed Units. These Speed Units are so fast and so intensely hot you will only use them for brief High Heat cooking periods. Most of your cooking will be done on money-saving Low Heat.

Have you guessed that electric cooking is DIFFICULT?

Guess again. Electric ranges simplify cooking because of the miraculous automatic controls. Oven meals almost cook themselves.

Have you guessed that electric cooking is EXPENSIVE?

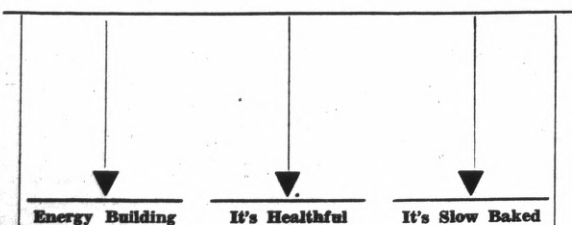

Guess again. Electric Cooking costs have been dropping steadily downward. One reason is that the electric rate for cooking is now very low. Another reason is that the NEW Electric Ranges use much less electricity. \$2.58 is the average monthly cost for cooking with 42,000 electric range users.

Come in today and see the new 1939 Electric Ranges. Prices are low and purchase terms exceptionally easy.

THE Studebaker LINE FOR '39

- The PRESIDENT
- The COMMANDER
- and now
- The CHAMPION

This sensationally priced junior member in a family of real Champions! A Studebaker through and through... and believe me you it can take it! You should see it!

Ask any of these Salesmen for a Demonstration!
Bill Saunders : Jack Frazer : Spence Plummer
